Venue: Hote Vrushali, Kolhapur
Speaker : Mr. Manish Kulkarni
Subject : E-Waste Management
Attendance: 35%

Mr. Manish Kulkarni works with the Mahalaxmi e-waste Management Services Pvt Ltd Pune and has been in the field of e-waste management for 27 years now. He provided an insight on how electronic waste needs to be collected, dismantled and recycled.

Recycling e-waste in an environmental friendly manner will result reduction of land filling, mining and ultimately pollution. Disposal of e-waste through local kabadiwallahs or scrap vendors is illegal. Therefore, we have to look for other sustainable methods. E-waste collection centres are being established in different parts of the city. One such centre has been established at RSSK which is an initiative in collaboration with the Rotary Club of Kolhapur which will ensure proper disposal and recycling of e-waste. He appealed to everyone to spread awareness about E-waste management among our own rotary families and then extend it to our neighbourhoods, schools and society.

Electronic equipments and devices in our homes which are not in use can be sent to the e-waste collection centre at RSSK where they would be piled and sent to Pune for appropriate recycling and disposal. The income earned from this would be utilised for essential Rotary projects.
